SHIPMENTVISION

TOTAL SHIPMENT VISIBILITY,
SUPPLY CHAIN OPTIMIZATION, AGGREGATED DATA

DO YOUR RAIL SHIPMENTS MOVE ON A MULTI-CARRIER NETWORK?

IS REAL-TIME SHIPMENT VISIBILITY A CRITICAL FUNCTION NEEDED TO OPTIMIZE YOUR SUPPLY CHAIN?

ShipmentVision, our advanced technology platform, puts your shipment data in one place.
Get accurate, timely data and total visibility between origin and destination. Track shipments 24/7 via a customized dashboard displaying the information most important to you.

NETWORK VISIBILITY FOR YOUR RAIL SUPPLY CHAIN

- 24/7 visibility across all rail carriers

- Shipment-level detail

- Dynamic SmartETAs

- Reporting tools to efficiently manage shipments and streamline communication across internal and external stakeholders

- Historical data retention for trend analysis and performance metrics

- Shipment data that is aggregated, cleaned and reconciled for discrepancies

- Dedicated Loup representatives to maximize transportation performance and data integrity
