

# UPDS Carload Logistics

*Solutions for Your Rail Supply Chain*

**Is there enough product in my pipeline?**

**How can I reduce delivered shipping costs?**

**Is my rail strategy as effective as it could be?**

**Am I properly resourced to handle my inbound rail volume?**

## Do you ever ask yourself these questions?

The UPDS Logistics team has the answers — and can take these worries off your plate.

We have the tools and expertise to manage the flow of your products from origin to destination so you see fewer disruptions, your products arrive as expected and you get total visibility throughout the shipping process.

## People to Improve Your Performance

How do we do that? Your dedicated Logistics Service Representative maximizes your transportation performance by:

- Providing constant and vigilant monitoring of your pipeline
- Identifying problems before they arise
- Proactively intervening to ensure your cargo arrives to destination

## Technology for Better Planning

Our technology provides you:

- 24/7 visibility across carriers
- Customized reporting that aligns with your business
- Planning tools such as fleet sizing and dynamic, data-driven Smart ETAs

### If Cost Is Your Challenge...

We provide the data to make effective decisions.

### If Control Is Your Challenge...

Our logistics solutions keep shipments moving.

### If Complication Is Your Challenge...

Our team has the expertise to streamline your supply chain.

## Your UPDS Logistics Options

UPDS has a suite of logistics offerings, from real-time visibility and border clearance solutions to demurrage mitigation and total pipeline management. Our services can be as high- or low-touch as you feel necessary — and we can customize a logistics management solution just for you.

## You Can Save Time and Money — And We Can Help

Our goal is to minimize disruptions along your supply chain, ensure your product is delivered safely and efficiently to market, and ultimately save you time, money and headaches along the way.
